Spa Cover Measuring

Date: _____ PO#: _____
 Dealer: _____
 Address: _____
 City, State, Zip: _____
 Phone: _____ Fax: _____
 Job Name: _____

See next page for instructions to each step.

1 Material
 Vinyl Color Name: _____

2 Spa Manufacturer
 Brand: _____
 Model: _____ Year: _____

3 Measuring Type
 Shell Fit Cabinet Fit

4 Cover Design
 Bi-fold Quad-fold Multiple Panels (3+)

5 Skirt / Flap Size
 1" 2" 3" 4" 6" 8"

6 The X's mark the appropriate location of the four lock down straps. If you want straps located other than where they are pictured, please indicate position, giving measurements from corner, hinge, etc.

7 Hinge Fold
 Fold is shown. Fill in measurements accordingly. If you want a different fold, please indicate with a dotted line.

8 Using the appropriate spa shape at right, fill in all the dimensions in inches (example 79" not 6'7").

9 Radius

Radiused Corner Radius

Measuring
 D1: _____ R: _____
 D2: _____ W1: _____
 H1: _____ W2: _____
 H2: _____

Instructions: please mark and fax first page only.

1 When ordering a vinyl cover for your spa there are 13 different colors to choose from. In the Spa Cover section of our website the Materials page has information on the various color options when purchasing a vinyl spa cover.

2 If you know the brand, model and year of your spa please fill in this information. If your spa has lip mounted air controls, buttons, or a handrail, etc., which will interfere with the spa cover fit please send us a cutout template.

Fit
3 For a shell fit spa cover, measure from outside the acrylic lip to outside the opposite acrylic lip. Shell fit is how the majority of spa covers are ordered (see illustration area). If you prefer a cabinet fit spa cover, measure from outside the wood lip to outside the opposite wood lip (see illustration). Always give dimensions in inches (example: 69" x 89 1/2").

Shell Fit

Cabinet or Shell Fit

Cover Design and Taper
4 Bi-fold spa covers are tapered 4" to 2.5" for water runoff. The majority of all spa covers ordered are bi-fold. This design is available up to 96" x 96" in any shape. Quad-fold spa covers are composed of two flat 4" thick center panels and two 2.5" tapered outer panels. They are available up to 99" x 99" in any shape. Custom covers are available in multiple panels and larger sizes.

Bi-Fold

Quad-Fold

Multiple

5 Skirt / Flap
Order the skirt in even inches only (see illustration above).

6 Lock Down Straps
Spa covers are required to have four lock down straps without exception. Two straps will be equally spaced on each handle end. You may move or add straps on the shape drawing with an "X" for location and measurement from the corner or the hinge (over four lock downs will add cost).

Hinge Fold
7 Most bi-fold spa cover hinge length will be the shortest direction for strength. If your spa cover is installed with a spa cover lift or if you wish to add a lift, the direction your cover folds will be important. Fill in your shape measurements with the fold in mind. If you want a different fold please indicate with a dotted line.

8 Template Drawing
A drawing or template may be required for all irregular shapes such as oval, kidney, free form, etc. If you know the brand and model it may be matched to our template file.

9 Radius Corners
Use a square, ruler or tape measure to square the radius corner. The measurement from the beginning of the curve to the corner is the radius.
